Don't pollute - walk, cycle or scoot

We created a car free zone to make the area outside the school safer and free of pollution. Waitrose car park is available to park at during pick-up and drop-off times with the option to walk the remainder of the journey.

We have the brilliant Honeybourne cycle route close to our school, so we have included cycle lanes, cycle shops and cycle parking on the map.

To help get more of you walking, we included zebra crossings, pedestrian crossings, footpaths and bus stops on the map too!

Walking, scooting and cycling to school is beneficial because:

- It keeps us fit and healthy
- It teaches children road safety
- It's better for the environment and helps keep our air clean
- It keeps the roads around the school free from traffic, which is safer for our children
- It's fun!
- It's quicker than finding a parking space
- Best of all it's FREE!

If you need to travel by car, please park outside the 10 minute walking zone and walk, scoot or cycle the rest of the way to school!

Our map will help you find your route to school!

Don't pollute - walk, cycle or scoot!

The Catholic School Of Saint Gregory The Great's Active Travel Map

An **Active Travel Map** has been introduced at The Catholic School Of Saint Gregory The Great to encourage as many families as possible to walk, cycle or scoot either all or part of the way to school.

Our aim is for children and adults to breathe clean air, live healthy, long and fulfilling lives and for our school and town to be a clean and safe place to be.

Here's what St. Gregory pupils have to say about the active travel map:

'It's a good way to keep safe as there will be less cars and less accidents'—Aaliyah

'This is a good idea to stop pollution and make us healthier' - Jake

'Let's create a happier and healthier generation' - Julia

'This active map is good for the environment and makes it safer and healthier and helps us to get fitter'—Finn
